April 20, 2017

Dear Families and Staff:

This is a follow up to my December 19 letter outlining the additional measures the New York City Department of Education (DOE) is taking to ensure that the water in New York City schools is safe for students and staff.

On **January 14, 2017**, every potential source of water for drinking or preparing food at **P.S. 18 Annex (Gym) - Manhattan (P.S. 018 Park Terrace, 4130 9 Avenue Manhattan, NY 10034)** was tested for lead. The laboratory results showed no elevated levels of lead in any of the samples of at **P.S. 18 Annex (Gym) - Manhattan**.

This letter and the full lab report can be viewed on the P.S. 018 Park Terrace website (<http://schools.nyc.gov/schoolportals/06/M018/default.htm>).

Please visit <http://schools.nyc.gov/AboutUs/schools/watersafety.htm> to learn more about the robust protocol we use to ensure the safety of drinking water in each and every school.

Thank you for your support and we wish you and your students a wonderful remainder of the school year.

Sincerely yours,

A handwritten signature in black ink that reads 'Elizabeth A. Rose'.

Elizabeth A. Rose

The following analytical report covers the analysis performed on samples submitted to EMSL Analytical, Inc. on 1/17/2017. The results are tabulated on the attached data pages for the following client designated project:

M884/ P.S. 18 Annex (Gym) - Manhattan/ 4130 9th Avenue/ New York/ 2181-17-0426

The reference number for these samples is EMSL Order #011700354. Please use this reference when calling about these samples. If you have any questions, please do not hesitate to contact me at (856) 303-2500.

Approved By:

Phillip Worby, Chemistry Laboratory Manager

The test results contained within this report meet the requirements of NELAP and/or the specific certification program that is applicable, unless otherwise noted.
NELAP Certifications: NJ 03036, NY 10872, PA 68-00367, CA ELAP 187

The samples associated with this report were received in good condition unless otherwise noted. This report relates only to those items tested as received by the laboratory. The QC data associated with the sample results meet the recovery and precision requirements established by the NELAP, unless specifically indicated. All results for soil samples are reported on a dry weight basis, unless otherwise noted. This report may not be reproduced except in full and without written approval by EMSL Analytical, Inc.
