

## ANNUAL ARTS IN SCHOOLS REPORT 2008-2009

This Annual Arts in Schools Report provides data for:

School: 23K184

2008-2009 Principal: Maryanne Devivio

Arts Education Liaison: Mary Anne DeVivio

### INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report is based upon responses submitted by schools and provides valuable information about two areas:

#### Student Access to and Participation in Arts Education

Uses survey information to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the experiences, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

#### Resources to Support Arts Education

Uses survey information to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in May 2009 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards: <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>.

Joel I. Klein  
Chancellor, New York City Department of Education

### New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.<sup>1</sup>

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed New York City schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents Endorsed Diploma with advanced designation in the arts.

#### Description of School's Arts Programs

#### This school has submitted the following description of its arts program:

The art program at P.S./I.S. 184 begins at the Pre-K level through Core Knowledge, expands through Middle School and extends to our after school program. A certified art teacher and outside organizations have provided rigorous opportunities for the students to develop their physical, social, cognitive, and aesthetic skills. Our art program integrates music, sports, and dance. Our goal is, by June 2010, all students will experience art in their learning by integrating art standards through dance, visual arts, and music. Student progress will be measured by a rubric, student art form, and on going assessments. The art curriculum will expand to include the five strands of learning: art making, literacy through art, making connections, cultural resources, and career integration. The students will have an opportunity to self-reflect and evaluate. Professional Development started in 2008, through a grant to include physical education and movement into the classrooms, and will expand in 2009 to remind us that learning is scaffolded. It will include an opportunity for advancement as students mature.
